## **Combined Clean-Up**

In a joint venture between Parks Victoria and Bogong Outdoor Education Centre, a group of Mount Beauty Secondary College (MBSC) Year 9 students helped to remove the old cattle exclusion fencing near Wallace's Hut as part of Schools Clean-Up day last month.

The eleven boys were taking part in Bogong's new 'Future Maker' program which aims to provide students with the skills to be initiators, leaders and managers to change in a world where they can influence their future.

Kevin Cosgriff from Parks Victoria was on hand to guide the students, along with Joey Cottrell (a Bogong trainee and former MBSC student). •
