

## Bogong Outdoor Education Centre

### Media Release: Planting on Wombats Ramble

On 22 and 23 of November students from Bogong Outdoor Education Centre in conjunction with Falls Creek Ski Lifts, worked together on a regeneration project on Wombats Ramble. The Year 9 students were from Nossal College, a selective entry state secondary college in Berwick. Students were happily engaged in planting snow grass on the bare areas on Wombats Ramble up hill from McKay Road. Environmental Officer Dave King spoke to students about the reasons for the bare ground and the need for vegetation cover. Students and staff were happy to be doing something pro-active and practical for the environment. Bogong Outdoor Education Centre will continue to work towards gaining a 5 star Resource Smart rating as well as the development of future joint ventures with Falls Creek Ski Lifts.
